Premiere Pro 2026

Tools and Methods to Master

Goal

By the end of this e-learning course, you will be able to use Premiere Pro to edit, enhance and finalize videos for professional, creative or digital projects. You will learn how to organize footage, build and refine sequences, and work with transitions, effects, titles, audio and colour. You will also discover AI-powered features, learn how to prepare projects for export and archiving, and develop practical working habits to continue exploring Premiere Pro with confidence.

Target audience	Prerequisites	Estimated time to study the essential modules
User	No prior knowledge of Premiere Pro is required. Hands-on practice with the software may help you progress faster.	Duration of the videos: 3h56

Educational content

► The essential modules

Premiere Pro 2026 - Mastering the basics

 Video	This module provides educational videos of a total duration of : 3h56
