

Word (2024 and Microsoft 365 versions)

From essential to advanced skills

Aim

Discover Word and master all its features. From the essential to the advanced commands, this training programme will make it possible for you to progress in all aspects of the application (entering text, formatting and page layout, inserting tables, pictures and graphic objects, advanced features such as templates, mail merge and managing long documents...).

Target audience

Any user who wishes to discover or revise Word's basic features and address its more advanced features.

Level required

No prior knowledge of Word is necessary. However, some use of the software may make it possible to progress faster.

Estimated time to complete the essential modules

16h 27min

Course content

► The essential modules

Word (2024 and Microsoft 365 versions) – Level 1: Essential skills

MEDIAplus
eLearning

This module offers interactive training consisting of 55 training videos and 55 exercises.
